

**Coffee to go – enjoy endless cups
with the new thermo City Mug**

Keep it, don't throw it away – drink with a clean conscience!

Gone are the days when it was cool to drink takeaway coffee from a disposable cup. Nowadays, those in the know prefer to enjoy their coffee on the go from a reusable cup. But why? Because disposable cups seriously harm the environment. Emsa did away with quick fixes long ago and is bringing a new must-have to the shelves for coffee lovers. Introducing the City Mug: a stylish, elegant yet functional thermo mug with an attractive price point.

Thanks to the reliable Quick Press closure, the City Mug is 100% leak-proof and easy to stow away in any bag. Its double-walled thermal stainless steel core keeps hot drinks hot for three hours and cold drinks cold for up to six hours. As if that weren't enough, this handy mug is also safe to use in the dishwasher. Emsa even offers a five-year guarantee for the product. Now everyone can get the maximum enjoyment from their coffee to go: finally, cold coffee is a thing of the past!
