

## Pure, Urban and Functional: New City Products 2015

### The First Railing Pot with Watering System

The urban balcony oasis is now even more colourful – with the new City railing pots in two sizes.

The railing pots with watering system now complement the City planter and window box series. With their simple and modern appearance and easy handling, they can be mounted to any round railing with a diameter of up to 6 cm (2.36 in.). The pots are quickly and securely mounted thanks to the concealed fastening screw. The extra-large planting volume and the integrated Aqua Plus watering system provide for beautiful plants and healthy growth.

#### All new City products at a glance:
