

Click, clack, sealed and packed: Clip & Close food storage containers

Longer lasting tasty freshness – scientifically proven!*

You can really count on the Clip & Close food storage containers! Scientific tests prove it: food stays fresh for longer when stored in Clip & Close containers. For example, strawberries even taste deliciously fresh up to 14 days later. Clip & Close also clearly finishes way up front compared to vegetables stored loose in the fridge. [Cucumbers](#) and [peppers](#) still look almost fresh out of the shop after 20 days.

The secret is in the unique freshness seal in the lid, which leaves no gaps whatsoever for germs or dishwasher residue to accumulate. Food is stored under 100% airtight conditions, keeping it completely germ-free and fresh for considerably longer.* The “Made in Germany” fresh food storage containers are also 100% BPA-free, plus they are the only containers of their kind to be manufactured in line with the Babycare standard. They are also dishwasher, freezer and microwave safe to boot.

Clip & Close Glass brings the perfect 3-in-1 solution into your kitchen. The oven-proof borosilicate glass container is the perfect solution for preparing, serving and packaging dishes to take them to another location. And speaking of meals: you’ll find lots of inspiration for [tasty recipes](#) and [preparing and storing](#) fresh food in the [Emsa blog](#) – it’s definitely worth a peak!
