

Healthy, green spring kitchen: with Fresh Herbs and We ♥ Salad

Vitamins, get your vitamins – with fresh herbs and crisp salad!

The fat's in the fan. And that's a good thing! But why? Because salad is taking over! These days in Germany, salad is an even more popular meal than schnitzel, the country's much-loved speciality.* Livened up with delicious nuts, fruit, lean meat or fresh fish and the right seasoning, salads are the healthy choice for mealtimes and form an integral part of any diet.

Making a great salad requires very little effort and no extraordinary culinary skills whatsoever – and Emsa's here to prove it with the We ♥ Salad collection. This collection includes a whole host of ingenious kitchen aids designed to help you prepare your favourite vegetables in next to no time. With everything from turbo-speed salad spinners to nimble herb and vegetable cutters or stylish stainless steel bowls with an integrated ice pack, salad fans are sure to find everything they want and need with We ♥ Salad.

Something missing?! That's right! As well as the fruit, veg, nuts & co., don't forget about to add fresh herbs to your salad! Try growing your own at home: it's incredibly easy with Fresh Herbs by Emsa. The highlight: the ingenious Aqua Comfort watering system lets plants take care of themselves via an internal watering wick, making the risk of them drying out or overwatering a thing of the past. Not only will this keep your herbs happy – but it also provides the best possible conditions for a truly rich profusion of herbs in your salad bowl.
